

I believe the FCC should not implement any proposal that would lessen the Indiana Telephone Privacy law. The law provides a very necessary protection of Indiana residents. The past months since this has been implemented has resulted in improved family time. We are no longer interrupted with phone calls during evening meals. I am actually able to prepare a meal without being interrupted multiple times. We know that if the phones rings during the evening, it's a call we need to answer. Please, do not interfere with the Indiana Telephone Privacy Law. Families need all the time together that they can get. Sincerely, Kathy Osburn
